---

Donn:

Per your request, I am forwarding my email from September 22, that has the Arkwood Revised 4<sup>th</sup> draft CIP attached. Please note, as discussed in the email below, that there are still EPA policy and procedural questions from ADEQ to EPA in the draft, that need to be addressed by EPA.

**Subject:** Arkwood CIP 4th Draft

Donn:

Attached is the revised 4<sup>th</sup> draft of the Arkwood Community Involvement Plan, for your review. I incorporated, to the extent possible, all comments made to the 3<sup>rd</sup> draft, from EPA, ADH, ATSDR, and ADEQ.

ADEQ had some new questions and comments directed to EPA, that involve EPA policy or procedure. Toeroek is unable to address these types of questions, and they need to be addressed by EPA. These questions and comments include adding specific numbers and timeframes (e.g., how long to approve a workplan, how many public meetings are scheduled); a request to add a site-specific EPA toll free number (rather than the general regional toll-free number); establishing a site-specific community relations website; and the need for a public meeting addressing the dioxin reassessment. I left ADEQ's questions intact, and added margin comments noting that these are new issues from ADEQ for EPA's attention.

After you have reviewed the revised 4<sup>th</sup> draft, please provide any comments or changes, as well as input to ADEQ's questions and comments. Thank you.
